Bio Based

Contains natural ingredient

Good Performance

High quality products with good color and maximum results

Fulfilling International Mechanical & Weathering Test

Better Carbon

The carbon content is environmental friendly

Product Warranty

FOR WALL & PANELLING

FOR FLOORING

www.vironcoating.com Brochure FCB Coating

FCB - WOOD COLOR

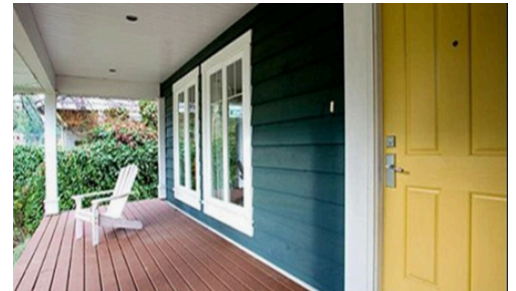

Viron FCB Coatings is designed to penetrate deep into surfaces and dry quickly: a combination of eco-friendly, biomass-derived ingredients (bio-base) gives Viron FCB COAT better carbon content and longer-lasting protection of outdoor surfaces, while remaining virtually odorless. As with all of our products, Viron FCB Coatings represents the future of environmentally sound coating solutions; it is the future we at Viron strive to achieve, one step at a time.

This coating system functions in two parts: PrePrime injects a variety of natural colors deep into the fibers of the board; and Ultra Shading locks these colors in while also adding depth to the surface's appearance and will leave you a pristine, natural grain aesthetic, without compromising on maximum protection from scratches, abrasions, and peeling. Ultra Shading is available for sheen level : matte (10 units), and satin (20-35 units).

The flooring industry places a high priority on materials that offer scratch resistance and mechanical wear and tear. Ultra Coat offer to give last protection on top, one until two layers will give best protection from scratch and extreme mechanical wear and tear conditions. Ultra Coat provide on sheen level : invisible (5 unit), matte (10 unit), and satin (20-35 unit)

FCB - HIDING COLOR

In tandem with FCB Wood Color, we've also developed a new version of FCB Hiding Color. With ours DuaProofAqua as an anti mold and anti patches will touch of vibrancy to your surfaces and for top of the line with Ultra Hiding characteristic also offers excellent coverage and yellowing-resistance, even under extreme weather conditions. Ultra Hiding offers variety of color choices to realize imagine of coating.
