

ULTRA COAT

Aqua Exterior 2K PU

Bio Based
Contains natural ingredient

Good Performance
High quality products with good color and maximum results

Fulfilling International Mechanical & Weathering Test

Better Carbon
The carbon content is environmental friendly

Product Warranty
5 Years WARRANTY FOR WALL & PANELLING
2 Years WARRANTY FOR FLOORING

ULTRA COAT

AQUA EXTERIOR 2K PU

The two-component polyurethane coating system (otherwise known as PU) has seen use since the dawn of the modern paint industry. Known for its smooth finish, good covering, PU has remained a mainstay in coating systems used today for flooring and furniture; likewise, the conventional drawbacks of a solvent-based system, and their harmful effects on both the environment and human health, remain at large.

As a leader in the flooring industry, Viron took a pioneering step in 2022 by developing ULTRA COAT - Aqua Exterior 2K PU, a water-based PU formulation designed to minimize harmful emissions and enhance environmental sustainability. Its combination of eco-friendly, biomass-derived ingredients (bio-base) gives ULTRA COAT better carbon content and longer-lasting protection of coated wood surfaces, while remaining virtually odorless.

ULTRA COAT possesses self-sealing traits, allowing for its use both as a sealer and as a top coat in both indoor, semi-outdoor, on flooring, doors and furniture. ULTRA COAT offer to give last protection on top, one until two layers will give best protection from scratch and extreme mechanical wear and tear conditions. ULTRA COAT provide on sheen levels : invisible (5 units), matte (10 units), and satin (15-35 units).

Through our innovative 3R technology, scratches and chips on an ULTRA COAT treated surface can be easily repaired, retouched, or recoated. ULTRA COAT is also applicable via hand roller, brush or manual spray, allowing for do-it-yourself, on-site repairs.

ULTRA SHADING

In tandem with ULTRA COAT, we've also developed a new version of ULTRA SHADING for full outdoor conditions on wall panelling and decking. It infuses a rich variety of natural wood colors. ULTRA SHADING has features as anti mold and anti tannin to prevent bleed-through and offers the highest light fastness to protect from discoloration even under extreme weather conditions. ULTRA SHADING provide on sheen levels : invisible (5 units) and matte (10 units)

ULTRA HIDING

Viron has also developed an enhanced version of ULTRA HIDING. Building on Ultra Shading's top-tier characteristics, its effectively as an anti mold and blocks wood tannins and prevents bleed-through will touch of vibrancy to your surfaces and for top of the line with ULTRA HIDING characteristic also offers excellent coverage and yellowing-resistance, even under extreme weather conditions. ULTRA HIDING offers variety of solid color choices to realize imagine of coating.
